Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of TSFC Securities Public Company Limited

I have reviewed the accompanying statement of financial position of TSFC Securities Public Company Limited as at 30 September 2020, the related statements of comprehensive income for the three-month and nine-month periods then ended, and the related statements of changes in owners' equity and cash flows for the nine-month period then ended, as well as the condensed notes to the interim financial statements (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity.* A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

TSFC Securities Public Company Limited

Notes to interim financial statements

For the three-month and nine-month periods ended 30 September 2020

1. General information

1.1 Corporate information

TSFC Securities Public Company Limited (hereinafter referred to as "the Company") is a public company incorporated and domiciled in Thailand. The Company is principally engaged in securities business and has two business licenses to engage in granting credits to securities business and securities borrowing and lending business. Its registered address is located at No. 898, Ploenchit Tower, 10th Floor, Ploenchit Road, Lumpini, Patumwan, Bangkok.

1.2 Basis for the preparation of interim financial information

These interim financial information are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial information. However, the Company has presented the statements of financial position, comprehensive income, changes in owners' equity and cash flows in the same format as that used for the annual financial statements which has been made in compliance with the stipulations of the Notification of the Office of the Securities and Exchange Commission relating to the format of the financial statements of securities companies (version 3) No. SorThor. 6/2562 dated 8 January 2019.

The interim financial information are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial information should therefore be read in conjunction with the latest annual financial statements.

The interim financial information in Thai language are the official statutory financial statements of the Company. The interim financial information in English language have been translated from the Thai language financial statements.

1.3 New financial reporting standards

a) Financial reporting standards that became effective in the current period

During the period, the Company has adopted the revised (revised 2019) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Company's financial statements. However, the new standard involves changes to key principles, which are summarised below:

Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7

Financial Instruments: Disclosures

TFRS 9

Financial Instruments

Accounting standard:

TAS 32

Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

TFRIC 16

Hedges of a Net Investment in a Foreign Operation

TFRIC 19

Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. The adoption of these financial reporting standards has resulted in changes in the Company's accounting policy as summarised below.

Change of classification and measurement

Financial assets classified as debt instruments

The Company classifies financial assets that are debt instruments as financial assets that are subsequently measured at amortised cost or fair value depends on the Company's business model for managing financial assets and the contractual cash flow characteristics of the financial assets as follows:

- Financial assets measured at amortised cost if both conditions are met: the financial asset is held within a business model with an objective to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Financial assets measured at fair value through other comprehensive income if both conditions are met: the financial asset is held within a business model with an objective to hold financial assets in order to collect contractual cash flows, and to sell the financial assets and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Financial assets measured at fair value through profit or loss when the financial asset is held within a business model without an objective to hold financial assets in order to collect contractual cash flows or the contractual terms of the financial assets give rise on specified dates to cash flows that are not solely payments of principal and interest on the principal amount outstanding.

Investments in equity instruments

All investments in equity instruments are measured at fair value in the statement of financial position. The Company classifies investments in equity instruments as financial assets to be measured at fair value through profit or loss, except certain items that are classified as financial assets to be measured at fair value through other comprehensive income in accordance with the Company's investment policy.

The significant changes are summarised as follows:

- The previous classification of other investments is no longer applicable.
- All other investments are to be classified as financial assets that are measured at fair value through other comprehensive income.

- The majority of investments in equity instruments are to be classified as financial assets that are measured at fair value through profit or loss, except certain items that are classified as financial assets measured at fair value through other comprehensive income in accordance with the Company's investment policy.
- For investments in equity instruments that have been measured at fair value through other comprehensive income, all gains and losses incurred will be shown in other comprehensive income, except dividends that are recognised in profit or loss.

Classification of financial liabilities

The classification of all financial liabilities of the Company has not been changed. The majority of its financial liabilities are still measured at amortised cost, except derivatives (losses) that are measured at fair value through profit or loss.

Impairment of financial assets

Impairment requirements according to TFRS 9 Financial Instruments are recognised in accordance with the Expected Credit Loss model and management overlay. The financial reporting standard requires the Company to recognise an allowance for expected credit losses for all financial assets classified as debt instruments that are not measured at fair value through profit or loss. The Company uses a general approach to determine an allowance for expected credit losses for cash equivalents, receivables from Clearing House and broker - dealers, securities business receivables, investments in debt securities and loans. Expected credit losses must be measured at the amount equal to 12-month expected credit losses, except in the cases that credit risk has increased significantly since initial recognition or assets are impaired, the allowance must be measured at the amount equal to the lifetime expected credit losses of financial instruments. Impairment under these financial reporting standards leads to credit losses being recognised faster compared to the previous method.

Practice during the transition period

Changes in accounting policies resulted from the adoption of financial reporting standards related to financial instruments must be applied retrospectively, except for the part of financial reporting standards which allows the Company to choose one of the following alternatives:

- It may opt not to restate the financial statements presented for comparative purposes, and make an adjustment to the cumulative effect of the initial adoption of the financial reporting standards related to financial instruments through an adjustment of retained earnings as at 1 January 2020. The presentation of the financial statements for the year ended 2019 did not comply with the financial reporting standards related to financial instruments and therefore cannot be compared with the presentation for the year ending 2020.
- It may reclassify financial assets according to the Company's business model and management of its assets on the basis of the facts and circumstances that exist at the date of first-time adoption of these financial reporting standards.

The cumulative effect of the change is described in Note 2 to the financial statements.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The Company adopted this financial reporting standard using the modified retrospective method of initial adoption of which the cumulative effect is recognised as right-of-use assets and lease liabilities as at 1 January 2020, with no effect to retained earnings as at 1 January 2020 and the comparative information was not restated.

The cumulative effect of the change is described in Note 2 to the financial statements.

Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. Its objectives are to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Treatment Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020.

The Company has elected to apply the following temporary relief measures on accounting alternatives:

 To measure the fair value of investments in unquoted equity instruments using the fair value as at 1 January 2020.

b) Financial reporting standards that became effective for fiscal years beginning on or after 1 January 2021

The Federation of Accounting Professions issued a number of revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Company is currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

1.4 Significant accounting policies

The interim financial information are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2019 except the adoption of financial reporting standards related to financial instruments and Thai Financial Reporting Standard 16 Leases, as described in the financial statements for the six-month period ended 30 June 2020.

2. Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 1.3 to the financial statements, during the current period, the Company has adopted financial reporting standards related to financial instruments and TFRS 16. The cumulative effect of initially applying these standards is recognised as an adjustment to retained earnings as at 1 January 2020. Therefore, the comparative information was not restated.

The impacts on the statement of financial position as at 1 January 2020 from changes in accounting policies due to the adoption of these standards are presented as follows:

2.2 Leases

Upon initial application of TFRS 16 the Company recognised lease liabilities previously classified as operating leases at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate at 1 January 2020. For leases previously classified as finance leases, the Company recognised the carrying amount of the right-of-use assets and lease liabilities based on the carrying amounts of the lease assets and lease liabilities immediately before the date of initial application of TFRS 16.

In over 1 and up to 2 years

(Unit: Million Baht)

30 September 2020

4.3

1.2

As at 31 December 2019, the Company had commitments from several operating lease agreements in respect of the lease of area in the building, equipment, motor vehicles and service agreements. The terms of the agreements are generally between 1 year and 4 years. Future minimum payments required under operating lease and service agreements were as follows:

(Unit: Million Baht)

	31 December 2019
Payable:	
In up to 1 year	12.7
In over 1 and up to 4 years	11.9

26. Segment information

The Company is principally engaged in the granting credits to securities business. Its operations are carried on only in Thailand. Segment performance is measured based on operating profit or loss, on a basis consistent with that used to measure operating profit or loss in the financial statements. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain to the aforementioned reportable operating segment and geographical area.

27. Fair value of financial instruments

As of 30 September 2020 and 31 December 2019, the Company had the following assets that were measured at fair value using different levels of inputs as follows:

	As at 30 September 2020					
	Book value	Fair value				
		Level 1	Level 2	Level 3	Total	
Financial assets measured at						
fair value						
Non-collateralised investments ⁽¹⁾	315,499	8,260	306,571	668	315,499	
Collateralised investments	129,982		129,982	-	129,982	
Financial liabilities measured						
at fair value						
Derivatives liabilities(2)	-	-	_	-		

⁽¹⁾ Included government securities for customers' account amounting to Baht 301 million.

⁽²⁾ Fair value of derivatives liabilities - futures as at 30 September 2020 amounting to Baht 6.7 million, included in "Receivables from Clearing House and broker - dealers", was measured at fair value by using Level 1 of input.

(Unit: Thousand Baht)

As at 31 December 2019

	Fair value			
	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Non-collateralised investments ⁽¹⁾	•	66,748	-	66,748
Collateralised investments	-	108,135	-	108,135
Assets for which fair value are disclosed				
Other investments - equity securities	-	-	668	668

⁽¹⁾ Included government securities for customers' account amounting to Baht 55 million.

Valuation techniques and inputs to Level 2 valuations

- a) For debts securities, their fair values are generally derived from quoted market prices or determined by using the yield curve as announced by the Thai Bond Market Association or by other relevant bodies.
- b) The fair value of unit trusts is determined from the net assets value (NAV) published by the mutual fund management companies acting as the fund managers.

Valuation techniques and inputs to Level 3 valuations

Fair value of non-marketable-equity instruments in the domestic market is determined using initial cost of the invested company.

During the current period, there were no transfers within the fair value level.

28. Reclassifications

Certain amounts in the statement of financial position as at 31 December 2019, and the statement of comprehensive income for the three-month and nine-month periods ended 30 September 2019, have been reclassified to comply with the Notification of SEC relating to the format of financial statements of securities companies (version 3) No. SorThor. 6/2562 dated 8 January 2019 and to conform to the current period's classification. The reclassifications are as follows.

(Unit: Thousand Baht)

		A	As at 31 December 2019		
		As recl	assified	As previously reported
